Minnay Institute Digitization Project

Minnay Institute Digitization Project (MIDP) is geared towards development of course subject matter in form of videos and DVDs that will be accessible to students locally and internationally. The project is based on providing supplemental material to students that otherwise struggle in the classes or do not have access to the material to enhance their learning. The material will be available on worldwide web, DVDs and videos that will be distributed in any way convenient for educational purposes only. However, since the Institute is engaged in training, the material will majorly be availed in the classrooms and training packages to students that enroll to study at the Institution.

We are honored to have your contribution and service in form of talent and expertise to provide the training necessary to our students and partners. This is a onetime project engagement and not an employment unless stated otherwise; arrangements will be made for your travel and accommodation for the period you spend in the production of the video in our studios. Once your application is reviewed and accepted we will contact you with necessary information and paperwork together with travel arrangements, usually it takes 5 business days to review applications. Most course projects take between 2-3 working days to record.

Disclaimer and Signature

I certify that my answers are true and complete to the best of my knowledge.

If this application leads to project participation, I understand that false or misleading information in my application or interview may result in my release and termination of the project.
